# *The National Parks of Kenya*

## *The Masai Mara National Reserve* "THE GREATEST WILDLIFE SHOW ON EARTH"

World renowned for the breathtaking spectacle of the annual migration of half a million wildebeest, the Mara is Kenya's most visited protected area. Technically an extension of Tanzania's renowned Serengeti National Park, the Mara constitutes only 4% of the entire Serengeti ecosystem but its rolling grasslands, meandering rivers and towering escarpments offer one of the world's most rewarding and evocative wildlife arenas. Offering an abundance of herbivores, the Mara makes the ideal hunting ground for Kenya's famous 'big cats' and hosts her largest population of lions. Historically teeming with wildlife, the Mara is famous for the large herds of elephant and buffalo that meander its plains; also for the fat pods of hippo that wallow in its mud-brown rivers.

## *Lake Nakuru National Park* "SHIMMERING MIRAGE, FLAMING REALM"

Entitled 'the greatest bird spectacle on earth' thanks to the millions of fuchsia-pink flamingo that flock to feed on the teeming algae of its alkaline waters, the pink-frosted shores and sky-mirrored waters of Lake Nakuru yield some of the most evocatively beautiful photo-images in Africa. Small in size, but high in wildlife, this park makes the ideal day trip, enroute to other destinations and abounds in picturesque lookouts and picnic spots. As Kenya's first and largest rhino sanctuary, sightings of both black and white rhino are almost guaranteed, while plentiful waterbuck, warthog, zebra, gazelle and buffalo graze the shoreline. Echoing to the haunting cries of the numerous fish eagles, this is also the park in which you have the best chance of seeing a leopard.
